

SYEDA MAHNOOR

OBJECTIVE

Motivated Software Engineering student with hands-on experience in MERN stack development and strong foundations in Data Structures, Algorithms, and Object-Oriented Programming. Passionate about building scalable web applications and solving real-world problems. Seeking an internship or entry-level opportunity to apply technical skills and contribute to impactful projects.

PROJECTS

MERN TASK MANAGEMENT APPLICATION (FULL-STACK PROJECT)

- Engineered a production-ready MERN application featuring a scalable RESTful API architecture and seamless frontend-backend integration.
- Implemented secure user sessions using JWT and a robust Role-Based Access Control (RBAC) system to differentiate User and Admin privileges.
- Architected core task management logic including full CRUD operations, advanced filtering, and automated due-date tracking.
- Designed a high-performance, responsive UI with Tailwind CSS and managed end-to-end deployment via Vercel and Render.

Live Demo: <https://todo-mern-lime-sigma.vercel.app>

DIGITAL LOGIC GATE SIMULATOR (C++ OOP PROJECT)

- Developed an OOP-based console simulator in C++ to model and evaluate fundamental logic gates (AND, OR, NOT, XOR).
- Leveraged Inheritance and Polymorphism to enable dynamic circuit creation and scalable logic operation processing.
- Integrated File I/O handling to allow users to save and load complex circuit configurations and input data.

Github: <https://github.com/syedamahnoor9e-eng/logic-gate-simulator>

JOB APPLICATION ANALYZER (DSA PROJECT)

- Developed a C++ application utilizing Data Structures and Algorithms for analyzing job application data
- Implemented sorting, searching, and efficient data handling techniques
- Focused on optimizing performance and logical problem-solving

Github: <https://github.com/syedamahnoor9e-eng/job-application-analyzer>

TECHNICAL SKILLS

Programming Languages

- C++, Python, JavaScript (ES6+)

Frontend

- HTML5, CSS3, React.js, Tailwind CSS, Responsive Web Design

Backend

- Node.js, Express.js, RESTful APIs, JWT Authentication

Database

- MongoDB, Mongoose

Tools & Technologies

- Git & GitHub, VS Code, Postman
-

STRENGTHS

- Strong understanding of MERN stack development
 - Strong analytical and problem-solving skills
 - Proficient in identifying, debugging, and resolving application-level issues efficiently
 - Ability to work independently and in a team
-

EDUCATION

Bachelor of Software Engineering

Lahore Garrison University

2024 – 2028 (Expected)

ADDITIONAL INFORMATION

- Actively building and deploying real-world projects
- Open to internships and entry-level opportunities
- Interested in full-stack development and scalable applications
